Re: Influent, Effluent and Recycle Flow Meter Project
Gary Sanitary District
North Influent Flow Meter Shut Down

Dear Mr. Dittmer:

As part of the construction activities associated with the above mentioned project, Hasse/Slurry JV Partners is required to demolish the north influent line that feeds Primary Clarifier Nos. 5 through 8 at the Gary Sanitary District Wastewater Treatment Plant. Hasse/Slurry JV Partners has notified the Gary Sanitary District that this line will be shut down for approximately three weeks starting on August 2, 2010 (see attached letter dated July 14, 2010).

Please accept this letter as notification of this planned shutdown of the North Influent Line. As always, the Gary Sanitary District will strive to maximize performance of its wastewater treatment facility to alleviate any adverse situations that may occur at a result of this shutdown.

Any technical / engineering questions concerning this permit may be addressed to myself at (219) 944-0595.

Sincerely,

Gary Sanitary District
Vern White, Deputy Director

Re: Influent, Effluent, Recycle Flow Meter Project
Gary Sanitary District
North Influent Flow Meter Shut Down
Hasse Project No. 0061

Dear Mr. Linde,

This letter is to notify you that on August 2nd Hasse Construction will begin the demolition of the north influent line. A complete shutdown of this line will be needed to complete this work. Duration of the shutdown will be approximately 3 weeks.

Should you have any questions or comments, please feel free to contact me at the phone number below or via email at bstaresina@hasseconstruction.com.

Sincerely,

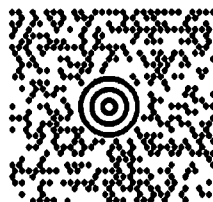

HASSE CONSTRUCTION COMPANY, INC.
